The investigation of crimes against children is of the utmost importance. We continue to seek ways to improve our capabilities in this area through training, technology, and partnerships. Our partnership with Telephone Connections has resulted in their donation of a laptop computer and software worth nearly \$ 3,000. The computer will be used to support the investigations of the exploitation of our children.

We salute Telephone Connection for their contribution to the program by going above and beyond in supporting police services in our community.
